COMMUNICATION	In every project I ever did we had presentations. I worked on the presentations both visual and verbal. I am confident because I do my own work. I am good at speech because I read too many fictional and non-fictional books that helped. I am good at communicating with other people

because communication has a big impact in what I learned from others.

LEADERSHIP

I have a certificate from Leadership and Debate Clubs Program. I was representative at my high school and also graduating committee which proves I am good at leadership. I also interned at my high school library which proves I am responsible.

COURSE PROJECTS

WINDOWS DESIGN PROJECT

Human Resource Management

It is a window design project using C# and MySQL. The system was designed to help the employees and the management team to interact better. The system also helps in recruitment, vacancy announcement and other components in management.

WEBSITE DESIGN PROJECT

Event Management

It is a website design project using the HTML, CSS, JAVASCRIPT, and PHP for the server using the wamp server. The system was designed to plan different events, create communication with the client and Do everything the client needed for the event without loss of data.

FINAL PROJECT

Public Procurement System

It is a website design project using the HTML, CSS, JAVASCRIPT, and PHP. For the server using the wamp server, Larval framework and also Bootstrap for the front. The system did the basic requirements for procurement and on the project I was asked to work on the emailing which I did.
